HEALING THE WHOLE CHILD. NATURALLY.

Holistic Child Health Newsletter August 2018

Dear Friends,

Welcome to the Holistic Child Health Newsletter.

The goal of my holistic pediatric practice, and of this newsletter, is to inform and support parents to become more empowered as the primary health care providers for their children. Extending far beyond Western medicine's conventional treatments, holistic medicine and mindful parenting allow us to boost children's natural immunity, support their optimum health and wellness, safely heal any illnesses, and prevent disease-without dangerous side effects. Holistic medicine provides us with the tools to nurture the physical, emotional, social and spiritual health of your children.

Over the coming months and years, I intend to use this newsletter to address some of your concerns as parents, share information that you might want to add to your knowledge base, and inform you of important issues and current events that are happening in the news, and in your area.

Together we can heal the whole child. Naturally.

Yours in Health,

Lawrence B. Palevsky, MD

US Take Action: Italian Senate Votes to Repeal Mandatory Vaccine Laws Why Not Here?

The Italian Senate just voted to repeal a 2017 law requiring all children in Italy to get 10 vaccines as a requirement to attend school. Passage of the law in the Italian parliament is expected early next year, but in the meantime enforcement of the law has been suspended. Italy's Senate voted to rejoin the majority of developed democracies that allow parents the final say on what is injected into their children's bodies. Parents have the final say in the UK, Ireland, Japan, Canada, Denmark, Norway, Sweden, the Netherlands, Belgium, Luxembourg, Austria, and many other developed democracies. All of these countries have lower infant and maternal death rates, and higher first day survival rates for newborns, than the US.

If Italy can do it, why not here in the US?

MUST WATCH! RFK, Jr. Proves HHS is in Violation of the "Mandate for Safer Childhood Vaccines" as Stipulated in the Vaccine Injury Compensation Act (VICA). SHARE!

HHS has never submitted a bi-annual report to Congress as required by 42 USC 300aa-27 listing what improvements it has made to vaccine safety. This speaks volumes to the lack of seriousness by which vaccine safety is treated at HHS. See the "Complaint" and "So Ordered Stipulation" court documents.
