

Dear Friends,

**Welcome to the Holistic Child Health Newsletter.**

The goal of my holistic pediatric practice, and of this newsletter, is to inform and support parents to become more empowered as the primary health care providers for their children.

Extending far beyond Western medicine's conventional treatments, holistic medicine and mindful parenting allow us to boost children's natural immunity, support their optimum health and wellness, safely heal any illnesses, and prevent disease-without dangerous side effects. Holistic medicine provides us with the tools to nurture the physical, emotional, social and spiritual health of your children.

Over the coming months and years, I intend to use this newsletter to address some of your concerns as parents, share information that you might want to add to your knowledge base, and inform you of important issues and current events that are happening in the news, and in your area.

Together we can heal the whole child. Naturally.

Yours in Health,

***Lawrence B. Palevsky, MD***

# ACTION ALERT

## From The Control Group:

It is OBVIOUSLY in the interest of "public health" to DOCUMENT the true risks and/or benefits of "unavoidably unsafe" medical interventions mandated by force of state police powers.

Only through documentation of a true "control" can the truth be known. Pharma is fighting to eliminate the "control group". So long as enough of us remain unvaccinated, we represent the most powerful "vaccine safety" evidence available. But this does not become "evidence" until we properly document it.

**Dr Palevsky's Comments:** This is someone who the advertising community would call an early adopter. She is willing to think, willing to not just listen to and parrot what she is told in the world, willing to investigate and research the answers, willing to question, and requestion, and dive into a subject, willing to say, “I don’t know what I don’t know,” willing to change her mind due to her own experiences and, most of all, willing to learn and grow, rather than stay static in the world she’s been told is true. This is the future, and these are the mothers and fathers who will continue to grow in number as we attempt to shed light on the darkness of myths and untruths.....Something didn’t seem right to her and once she figured out what it was, she couldn’t turn back.
